Forklift pedestrian safety is offered as well.

Learn with our really skilled group of experts to ensure that your employees are as well-trained as possible. Forklift certification is delivered on site by qualified instructors with numerous years of practice. Individuals training will know how to recognize hazards and perform safety checks needed for the safe and effective use of a powered industrial lift truck.

### Forklift Training Tips

The following checklist is essential for whatever workplace that has lift trucks on the premises. Each of these questions must be answered with "yes" if all the safety regulations and rules are being followed. A "no" to any question indicates a procedural flaw which may lead to injury, damage to equipment or accident.

- 1) Is the forklift operating area separated from pedestrian traffic?
- 2) Is access by pedestrians to forklift areas restricted by a barrier?
- 3) The pedestrian walkways well-marked?
- 4) A sign is clearly visible stating a "lift truck in operation"?
- 5) Are mirrors for drivers and pedestrians provided at blind spots?
- 6) Changes or alterations to the daily forklift schedule has been communicated to workers?
- 7) Are lift truck tires suitable for use on all operating surfaces?
- 8) Is the seatbelt being utilized?
- 9) The forklift seat is in good condition?
- 10) Is a regular forklift maintenance schedule adhered to?
- 11) Is a yearly forklift inspection and certification done?
- 12) Is the kind of forklift appropriate for the tasks?
- 13) Does forklift has a load chart that is readable?
- 14) Can the operators read and understand the load chart?
- 15) Does the chart list the safe capacity for various attachments and uses?
- 16) Are the warning devices on the forklift working properly?
- 17) Is the operating speed control device fitted properly?
- 18) The forklift overhead cage is fitted properly?
- 19) Have all forklift operators obtained certification?
- 20) Speed limits and warning signs are being observed?
- 21) The operators have current training for the lift trucks being utilized?
- 22) Do operators know their duties to report any machine damage and lift truck accidents?
- 23) Is the pre-test checklist reviewed every day prior to the equipment being operated?
